HIGHLIGHTS
R290: Eco refrigeration gas.
Produces granular ice flakes with a hardness of 75%.
Ice scoop holder securely positioned in the ice bin.
Computerized Advanced Diagnostic Testing.
Inlet and outlet airflow on the front panel (air-cooled model only) for built-in installation.
Front-access condenser air filter, removable and washable (air-cooled version only).
Easy access to the front panel of the machine's technical/service area.
PWD - Progressive Water Discharge: pumps excess residual water up to a distance of 15 meters (EF models only).
Xsafe: integrated sanitation system operating 24/7. All-natural, it acts automatically and continuously, keeping the machine clean and sanitized.

Flake ice
Residual water content 25%

FLAKE ICE
The talented one
Ice in its most natural shape. It is made at a temperature just below 0°C. Highly versatile and suitable for multiple applications: fish display counters, buffet display, frozen drinks preparation as well as fast chilling of wine & champagne buckets.
